Melinda Lyons (SIL International), ISO 639-3 Registrar, 18 May 2011

Summary of requested changes

There were 37 requests were considered, recommending 50 explicit changes in the code set. Among those decided, five have been rejected and 32 have been fully approved.

The 40 explicit changes can be analyzed as follows:

- Retirements: 8
 - 2 merged languages;
 - 4 split languages, resulting in 8 new language code elements (net gain of 4).
- Completely new languages: 4 newly created languages not previously associated with another language in the code set: 3 living languages and 1 extinct language.
- Updates: 20
 - 19 name updates, either change to a name form or addition of a name form;
 - 1 denotation update of a language into which another variety was merged;

The history of any change request may be viewed on its documentation page of the pattern:
