

ISO 639-3 Change Requests Series 2013

Summary of Outcomes

Melinda Lyons (SIL International), ISO 639-3 Registrar, 3 February 2014, corrected 20 Mar 2014

Summary of requested changes

Altogether 32 requests were considered, recommending 57 explicit changes in the code set. Among those decided, 7 have been rejected and 18 have been fully approved, and 3 were partially approved.

The explicit changes can be analyzed as follows:

- Retirements:
 - 3 simple retirements: 1 is a correction to a change made last year;
 - 2 merged retirements ;
 - 2 split languages, resulting in 4 new language code elements (a net gain of 2).
- Completely new languages: 7 newly created languages not previously associated with another language in the code set: 5 living languages and 2 extinct languages.
- Updates:
 - 6 name updates, either change to a name form or addition of a name form.

Of the 5 2013 changes awaiting final decisions, the following decisions were made:

- 2 Completely new languages have been created (Pattapu [ptq] and Eskayan [esy])
- 2 Requests have been rejected (name change for Camtho and creation of Nethakani)
- 1 Request has been withdrawn (merge of Yinbaw Karen and Kayan)

In addition, one request from 2012 to create a code for Nung An has been withdrawn

The history of any change request may be viewed on its documentation page which uses the pattern:
