

ISO 639-3 Change Requests Series 2015 Summary of Outcomes

Melinda Lyons (SIL International), ISO 639-3 Registrar, 15 January 2016

Summary of requested changes

Altogether 67 requests were considered, recommending 100 explicit changes in the code set. Among those decided, 3 have been rejected, 59 have been fully approved, and 1 was partially approved. 4 are waiting for additional information before a decision can be made.

The explicit changes can be analyzed as follows:

- Deprecations (Retirements):
 - 21 simple deprecations (retirements);
 - 13 merged deprecations (retirements) ;
 - 4 split languages.
- Completely new languages: 12 newly created languages not previously associated with another language in the code set: 11 living languages and 1 extinct language.
- Updates:
 - 1 name change that reflected the addition of a country to disambiguate a name;
 - 1 name change that reflected change in capitalization per request of the people group;
 - 21 name updates, either change to a name form or addition of a name form;
 - 9 denotation updates, where a merged language is combined with another
 - 1 membership update because of split of a language into two languages.

The history of any change request may be viewed on its documentation page which uses the pattern:

http://www-01.sil.org/iso639-3/chg_detail.asp?id=2014-0012

Likewise, the history of any code element may be viewed on its documentation page which uses the pattern:
